Oefeningenreeks 1D nr. 5.10

Werk uit:

$$\begin{aligned} & (z^6 - z^4 + z^2 - 1)(z^2 + 1) \\ &= z^6(z^2 + 1) - z^4(z^2 + 1) + z^2(z^2 + 1) - 1(z^2 + 1) \\ &= z^8 + z^6 - z^6 - z^4 + z^4 + z^2 - z^2 - 1 \\ &= z^8 - 1 \end{aligned}$$
