$$f(x) = e^{-x}$$

$$\begin{aligned}\int_0^{+\infty} e^{-x} dx &= \lim_{a \rightarrow +\infty} \int_0^a e^{-x} dx = \lim_{a \rightarrow +\infty} [-e^{-x}]_0^a \\ &= \lim_{a \rightarrow +\infty} (-e^{-a} + 1) = 0 + 1 = 1\end{aligned}$$
