$$\sum_{n=1}^{\infty} \frac{\sqrt{n}}{n!}$$

Volgens het criterium van d'Alembert:

$$\begin{aligned} & \lim_{n \rightarrow +\infty} \left| \frac{\frac{\sqrt{n+1}}{(n+1)!}}{\frac{\sqrt{n}}{n!}} \right| \\ &= \lim_{n \rightarrow +\infty} \left| \frac{\sqrt{n+1}}{(n+1)!} \cdot \frac{n!}{\sqrt{n}} \right| \\ &= \lim_{n \rightarrow +\infty} \left| \frac{\sqrt{n+1}}{(n+1)\sqrt{n}} \right| \\ &= \lim_{n \rightarrow +\infty} \frac{1}{\sqrt{n(n+1)}} \\ &= 0 \end{aligned}$$

Omdat $0 < 1$, is de reeks convergent.
