$$\begin{aligned}r \cos \left(\theta + \frac{\pi}{4} \right) &= -2 \\ \Leftrightarrow r \left(\cos \theta \cos \frac{\pi}{4} - \sin \theta \sin \frac{\pi}{4} \right) &= -2 \\ \Leftrightarrow \frac{\sqrt{2}}{2} x - \frac{\sqrt{2}}{2} y &= -2 \\ \Leftrightarrow y &= x + \sqrt{8}\end{aligned}$$
