Oefeningenreeks 2B nr. 6.2

$$\begin{aligned} & \operatorname{Bgtan} \frac{1}{2} + \operatorname{Bgtan} \frac{1}{3} \\ &= \operatorname{Bgtan} \left(\frac{1 - \frac{1}{2} \cdot \frac{1}{3}}{\frac{1}{2} + \frac{1}{3}} \right) = \frac{\pi}{4} \end{aligned}$$
