Onderzoek de convergentie van de reeks $\sum_{n=1}^{\infty} \frac{n!}{n^n}$

d'Alembert

$$\text{Stel } a_n = \frac{n!}{n^n}$$

$$\text{Stel } a_{n+1} = \frac{(n+1)!}{(n+1)^{n+1}}$$

$$\begin{aligned} L &= \lim_{n \rightarrow \infty} \left| \frac{a_{n+1}}{a_n} \right| \\ &= \lim_{n \rightarrow \infty} \left(\frac{(n+1)!}{(n+1)^{n+1}} \cdot \frac{n^n}{n!} \right) \\ &= \lim_{n \rightarrow \infty} \left(\frac{(n+1) \cdot n!}{(n+1) \cdot (n+1)^n} \cdot \frac{n^n}{n!} \right) \\ &= \lim_{n \rightarrow \infty} \frac{n^n}{(n+1)^n} = \lim_{n \rightarrow \infty} \left(\frac{n}{n+1} \right)^n \\ &= \lim_{n \rightarrow \infty} \frac{1}{\left(\frac{n+1}{n} \right)^n} = \lim_{n \rightarrow \infty} \frac{1}{\left(1 + \frac{1}{n} \right)^n} \\ &= \frac{1}{e} \end{aligned}$$

Aangezien $L = \frac{1}{e} < 1$, is de reeks convergent.
